**Exam : ITIL-4 Transition**

**Title : ITIL 4 Managing  
Professional Transition  
Exam**

**Version : DEMO**

1. In an organization, a service desk team employs experienced staff who have worked there for many years and have good relationships with support teams. The organization has a good improvement culture, and staff are encouraged to use their experience and identify improvements. They are developing a new policy for handling incidents.

Which is the BEST approach for this new policy?

- A. Ensure that any identified exceptions are excluded from the policy to improve clarity
- B. Ensure that all teams involved in incident resolution collaborate in the development of the policy
- C. Implement the policy to the service desk staff initially before informing other affected support teams
- D. Engage with stakeholders to ensure that as much detail as possible is included in the policy

**Answer: B**

2. Which high velocity IT objective considers an organization's ability to continue providing business services when disruptive events affect its digital products?

- A. Valuable investments
- B. Resilient operations
- C. Fast development
- D. Assured conformance

**Answer: B**

3. What BEST describes the relationship between planning and risk?

- A. Planning is a high level function, risk management is a tactical activity
- B. Planning should always consider risks and how to mitigate them
- C. Planning focuses on what needs to be accomplished, risk management is part of how work is to be performed
- D. Risk management is the exclusive domain of dedicated risk managers

**Answer: B**
