**Exam** : **SPS-100**

**Title** : **IBM SPSS Statistics Level 1**

**Version** : **Demo**

1.Which statement concerning IBM SPSS Statistics application windows is correct?

- A. At least one Data Editor window must be open in each IBM SPSS Statistics session
- B. At least one Output Viewer must be open in each IBM SPSS Statistics session
- C. At least one Syntax window must be open in each IBM SPSS Statistics session
- D. Closing all open Syntax windows will result in the program automatically shutting down

Answer: A

2.Which of following statements about the File...Save As dialog are wrongs? (Choose two)

- A. By default, the file is saved as an IBM SPSS Statistics data file
- B. You can save your data in other formats, such as Excel, Text
- C. All variables in the Data Editor must be saved
- D. You can choose to save only a subset of cases

Answer: B,C

3.When performing CROSSTABS can control variables be added to the procedure?

- A. Yes, by placing the variables in the row box.
- B. Yes, by placing the variables in the column box.
- C. Yes, by placing the variables in the layer box
- D. No, control variables cannot be incorporated in a cross tabulation

Answer: C

4.Which statement is true about this box plot?

- A. The mean is 14.
- B. The standard deviation is 14 (20 minus 6)
- C. The standard deviation is 4 (16 minus 12).
- D. All of the outliers are on the lower end of the distribution

Answer: D

5.What type of graph would you use to see the distribution of a scale variable?

- A. Bar chart
- B. Pie chart
- C. Histogram
- D. Scatterplot

Answer: C

6.IBM SPSS Statistics system variables can be:

- A. Used in data transformations.
- B. Specified in analysis procedures.
- C. Modified using Compute Variable.
- D. Viewed in the Data Editor

Answer: A

7.Which statement is the correct interpretation of this crosstab table?

|                            |                                     |                                     | GENDER OF RESPONDENT |        | Total  |
|----------------------------|-------------------------------------|-------------------------------------|----------------------|--------|--------|
|                            |                                     |                                     | Female               | Male   |        |
| BELIEF IN LIFE AFTER DEATH | YES                                 | Count                               | 541                  | 417    | 958    |
|                            |                                     | % within BELIEF IN LIFE AFTER DEATH | 56.5%                | 43.5%  | 100.0% |
|                            |                                     | % within GENDER OF RESPONDENT       | 86.0%                | 76.9%  | 81.8%  |
|                            | NO                                  | Count                               | 88                   | 125    | 213    |
|                            |                                     | % within BELIEF IN LIFE AFTER DEATH | 41.3%                | 58.7%  | 100.0% |
|                            |                                     | % within GENDER OF RESPONDENT       | 14.0%                | 23.1%  | 18.2%  |
| Total                      | Count                               | 629                                 | 542                  | 1171   |        |
|                            | % within BELIEF IN LIFE AFTER DEATH | 53.7%                               | 46.3%                | 100.0% |        |
|                            | % within GENDER OF RESPONDENT       | 100.0%                              | 100.0%               | 100.0% |        |

- A. 56 5% of females believe in life after death
- B. 86 0% of females believe in life after death
- C. 27 5% of females believe in life after death
- D. 53 7% of females believe in life after death

Answer: D

8.After studying the figure below, select the correct statement.

The screenshot shows the IBM SPSS Statistics interface. The title bar reads 'Gss93.sav [DataSet2] - PASW Statis...'. The menu bar includes File, Edit, View, Data, Transform, Analyze, Graphs, Utilities, Add-ons, Window, and Help. The toolbar contains various icons for file operations and data manipulation. The main window displays a 'Data View' of a dataset with 85 variables. The first few rows of data are visible:

|   | abany | age | aged | agedwed | amtests | attend | attspts | ball |
|---|-------|-----|------|---------|---------|--------|---------|------|
| 1 | 2     | 43  | 1    | 20      | 3       | 2      | 2       |      |
| 2 | 1     | 44  | 0    | 0       | 3       | 2      | 2       |      |
| 3 | 1     | 43  | 1    | 25      | 2       | 7      | 2       |      |
| 4 | 0     | 45  | 2    | 0       | 1       | 1      | 2       |      |
| 5 | 1     | 78  | 0    | 0       | 1       | 2      | 1       |      |
| 6 | 1     | 83  | 2    | 25      | 1       | 2      | 2       |      |

- A. Gss93.sav is the dataset name.
  - B. DataSet2 is the dataset name.
  - C. DataSet2 is the file name.
  - D. DataSet2 is both the file and dataset name.
- Answer: A

9. The IBM SPSS Statistics Select Cases provides various ways to select cases included in further analysis. If you needed to conduct analysis on those respondents whose age is more than thirty years, earning in excess of \$40000, which option in this dialogue would you choose to specify these criteria?
- A. Random sample of cases
  - B. Based on time or case range
  - C. Use filter variable
  - D. If condition is satisfied
- Answer: D

10. What is the main advantage of using syntax?
- A. It can be run using the menus.
  - B. It is the most popular way of running IBM SPSS Statistics.
  - C. It can be saved and retrieved for subsequent analyses.
  - D. It is the same format as syntax in other statistical software.
- Answer: C
