**Exam** : **642-591**

**Title** : Implementing Cisco NAC  
Appliance

**Version** : DEMO

**1.The NAS is configured to autogenerate an IP address pool of 30 subnets with a netmask of /30, beginning at address 192.168.10.0. Which IP address is leased to the end-user host on the second subnet?**

- A.192.168.10.4
- B.192.168.10.5
- C.192.168.10.6
- D.192.168.10.7

**Correct:C**

**2.Which default administrator group has delete permissions?**

- A.admin
- B.help-desk
- C.add-edit
- D.full-control

**Correct:D**

**3.What is the result when the condition statement in a Cisco NAA check for required software evaluates to false on a client machine?**

- A.The required software is automatically downloaded to the user device.
- B.The required software is made available after the user is quarantined.
- C.The user is put in the unauthenticated role and the software is considered missing.
- D.The user is placed in the temporary role and the software is made available.

**Correct:B**

**4.Which three components comprise a Cisco NAC Appliance solution? (Choose three.)**

- A.a NAC-enabled Cisco router
- B.a Linux server for in-band or out-of-band network admission control
- C.a Linux server for centralized management of network admission servers
- D.a Cisco router to provide VPN services
- E.a read-only client operating on an endpoint device
- F.a NAC-enabled Cisco switch

**Correct:B C E**

**5.Drop**

Click and drag the default username from the left to the correct description on the right. (Choose three.)

normal role	assigned to this role after vulnerabilities are found in a network scan
blocked role	assigned to this role when Cisco NAA end-user policy requirements are not met
authenticated role	assigned to this role after a successful login
quarantine role	
remediation role	
temporary role	

Correct:

Green choice1---->Yellow Choice3

Green choice6---->Yellow Choice2

Green choice4---->Yellow Choice1

6.Drop

Click and drag each feature of a Cisco NAC Appliance solution from the left to its correct benefit on the right.

vulnerability assessment	has a web-based management console that can manage several servers
authentication integration	provides access to OS patches and updates, virus and spam filters, and endpoint security
traffic-filtering policies	scans for specific endpoint devices and roles, and adjusts for required remediation
centralized management	supports Kerberos, LDAP, RADIUS, Active Directory, S/Ident
remediation and repair	supports role-based policies
adaptable levels of enforcement	supports scanning of network-based operating systems and non-PC networked devices

Correct:

Green choice1---->Yellow Choice6

Green choice2---->Yellow Choice4

Green choice3---->Yellow Choice5

Green choice4---->Yellow Choice1

Green choice5---->Yellow Choice2

**Green choice6---->Yellow Choice3**

**7. When configuring the Cisco NAM to implement Cisco NAA requirement checking on client machines, what is the next step after configuring checks and rules?**

- A. retrieve updates
- B. require the use of the Cisco NAA
- C. configure session timeout and traffic policies
- D. map rules to requirement
- E. configure requirements

**Correct: E**

**8. Refer to the exhibit. When logging in to a Cisco NAC Appliance solution, an end user is prompted for a username, password, and provider. What should be entered in the Provider drop-down field shown in the exhibit?**

- A. the authenticating NAS
- B. the authorizing NAM
- C. the name of the ISP
- D. the external authenticating server

**Correct: D**

**9. What are the two types of traffic policies that apply to user roles? (Choose two.)**

- A. IP-based
- B. peer-based
- C. host-based
- D. manager-based
- E. server-based
- F. VLAN-based

**Correct: A C**

**10. After you implement a network scan and view the report, you notice that a plug-in did not access any of its dependent plug-ins. What did you forget to do?**

- A. enable the Dependent Plug-in check box on the General Tab form
- B. configure dependent plug-in support when you mapped the Nessus scan check to the Nessus plug-in rule
- C. install dependent plug-ins when you updated the Cisco NAC Appliance plug-in library
- D. load the dependent plug-ins for that plug-in in the Plug-in Updates form

**Correct: D**
